Grief & Loss Support Services in Waterloo Region

Grief is "the process of adjusting" to life after the
death of someone special. It is a normal, natural
process that varies greatly from person to person
and from time to time.

Support, understanding and help from others —
friends, family and professionals — makes our grief
journey easier and less confusing. Remember,
healing takes time and there may be periods where
it is difficult to notice any progress.

This pamphlet lists not-for-profit resources that offer
either individual or group bereavement support
services. Some services are offered free of charge,
while others are "fee for service" offered on a sliding
scale. Please inquire when you call.
